### Installation Guide

# 2020 Fusion

Please take the time to read these instructions before installing 2020 Fusion.

**IMPORTANT** Please do not follow these instructions if you are installing a 'Free Trial' version of 2020 Fusion, a separate installation guide is available for this type of installation.

If you do not have a DVD drive please contact the Support Helpline.

#### 20-20 Technologies Limited

## Actively Supported Operating Systems

### PC Operating Systems (64 bit only)

- Windows 10 (Excluding Windows 10 S mode and Windows 10 mobile)

- Windows 7, with Service Pack 1, including all recommended updates (Excluding Windows 7 Starter)

- Windows Server 2019, with Desktop Experience (Excluding 'Nano-Server')

- Windows Server 2016, with Desktop Experience (Excluding 'Nano-Server')

#### Mac Operating Systems (64 bit only)

Mac OS X 10.14 (Mojave) or newer WITH Boot Camp 6.1 or newer AND Windows 10 (Excluding Windows 10 S mode and Windows 10 mobile).

For a complete list of required 3<sup>rd</sup> party software, please see **PAGE 30** of this document.

### Install Software

**IMPORTANT** If a shared database is to be used, installation must be performed on the PC containing the database first.

#### EXISTING USERS

If upgrading to Version 7 from any of Version 2, 3, 4, 5, or 6 of 2020 Fusion:

Please make sure that all customers, catalogues, tasks and designs are checked in before commencing.

Please create and save a backup of your database before commencing.

If upgrading from Version 1.1 of 2020 Fusion or earlier, please contact your local 2020 Fusion Support Team before proceeding.

#### Attach USB Dongle before running the installer.

# Insert the 2020 Fusion DVD labelled "Software DVD".

The DVD will automatically start running the installation program.

## Install Software - Upgrade

If a previous version of 2020 Fusion is found, this dialog will appear.

Click Next. (Cancel will abort the installation)

At this point we need to establish which type of installation is required.

See TYPES OF INSTALLATION.

## Types of Installation

#### **NO PREVIOUS VERSION OF 2020 FUSION INSTALLED**

# Server and Client Setup

This option installs all 2020 Fusion software (including the client database) on the target machine. This type of installation must be selected when 2020 Fusion is installed on a single computer not connected to any other computers, or when it will run 2020 Fusion and share the database with other computers. Go to **PAGE 10**.

### Server and Client Setup

Using existing database

This option installs all 2020 Fusion software (Using an existing client database) on the target machine. This type of installation must be selected when 2020 Fusion is installed on a single computer not connected to any other computers, or when it will run 2020 Fusion and share the database with other computers. Go to **PAGE 14**.

#### **Server Setup**

The 'Server Setup' option will only install the client database on the target machine and should only be used where there is more than one computer on a network with a requirement to share designs. This option does not install 2020 Fusion, just the client database and should be installed before any client machines. Go to **PAGE 18**.

#### **Client Network Setup**

The 'Client Setup' option will install all of the 2020 Fusion software except for the client database on the target machine. During this form of setup you will be prompted for the location of the client database which you must already have installed. This option is only suitable for new installations of 2020 Fusion. Go to PAGE 21.

To check for any further updates to the catalogues installed by DVD and to look for any other eligible catalogues, click **Check for Updates** in the **Manage Catalogues** dialog. Please ensure that you are online when doing so.

Once connected, the **Choose Update Versions** dialog will appear; check the available updates that you wish to download and click **OK**.

Once the updates have successfully downloaded, click **Yes** in the **Updates Ready** dialog to install them onto your system.
