Installation Guide

2020 Fusion

Please take the time to read these instructions before installing 2020 Fusion.

IMPORTANT Please do not follow these instructions if you are installing a 'Free Trial' version of 2020 Fusion, a separate installation guide is available for this type of installation.

If you do not have a DVD drive please contact the Support Helpline.

Install Software

IMPORTANT If a shared database is to be used, installation must be performed on the PC containing the database first.

EXISTING USERS

If upgrading to Version 6 from any of Version 2, 3, 4, or 5 of 2020 Fusion:

Please make sure that all customers, catalogues, tasks and designs are checked in before commencing.

Please create and save a backup of your database before commencing.

If upgrading from Version 1.1 of 2020 Fusion or earlier, please contact your local 2020 Fusion Support Team before proceeding.

Attach USB Dongle before running the installer.

Insert the 2020 Fusion DVD labelled "Software DVD".

The DVD will automatically start running the installation program.

Install Software - Upgrade

If a previous version of 2020 Fusion is found, this dialog will appear.

At this point we need to establish which type of installation is required.

See TYPES OF INSTALLATION.

Types of Installation

NO PREVIOUS VERSION OF 2020 FUSION INSTALLED

Server and Client Setup

This option installs all 2020 Fusion software (including the client database) on the target machine. This type of installation must be selected when 2020 Fusion is installed on a single computer not connected to any other computers, or when it will run 2020 Fusion and share the database with other computers. Go to **PAGE 10**.

Server and Client Setup Using existing database

USING EXISTING DATADASE

This option installs all 2020 Fusion software (Using an existing client database) on the target machine. This type of installation must be selected when 2020 Fusion is installed on a single computer not connected to any other computers, or when it will run 2020 Fusion and share the database with other computers. Go to **PAGE 14**.

Server Setup

The 'Server Setup' option will only install the client database on the target machine and should only be used where there is more than one computer on a network with a requirement to share designs. This option does not install 2020 Fusion, just the client database and should be installed before any client machines. Go to **PAGE 18**.

Client Network Setup

The 'Client Setup' option will install all of the 2020 Fusion software except for the client database on the target machine. During this form of setup you will be prompted for the location of the client database which you must already have installed. This option is only suitable for new installations of 2020 Fusion. Go to PAGE 21.

Server and Client - New Installation

2020 Fusion

Installation Complete
Setup has finished installing 2020 Fusion on your machine.
Select 'Finish' to exit the Installation.
Back Finish Cancel

A status screen will appear indicating the installer's progress.

Click Finish when the installation is complete.

A 2020 Fusion icon will appear on the desktop. **DOUBLE-CLICK** to start.

Client - Network

A 2020 Fusion program group will also be available in the Windows Start menu.

2020 Fusion can be started by either method.

The manufacturers' catalogues can now be installed. Go to **PAGE 25**.

If catalogues have already been installed during the process of "Installing 2020 Fusion Single Computer", running 2020 Fusion and logging in will copy and install all catalogues previously installed. Catalogues require installation only once on a networked installation from any of the computers running 2020 Fusion with a dongle attached.

Catalogue Installation

Insert the 2020 Fusion DVD labelled "Catalogue DVD".

DOUBLE-CLICK on the 2020 Fusion icon on your desktop.

Login

Connect operates with a security login name and passwords; this is initially set to a Login name of "admin" and a password of "admin".

Type **admin** in the Password field (lower case) and click **OK**.

NOTE The password will be protected as it is entered.

When the Connect screen appears, you will also be prompted to download new updates online. However, to allow the supplied catalogues to be initially installed from DVD on this first occasion, click **No** in the **New updates are available...** pop-up window.

Catalogue Installation

Still in the Connect screen, click **Cancel** in the **Find customer** window.

Select Manage Catalogues in the File tab. Click on Install Catalogue(s) in the Manage Catalogue window.

A browser window appears.
